

Practical-9

Aim Perform the following Views

- Creating Views (with and without check option
- Dropping Views
- Selecting from a view.

Output :

- Creating Views (with and without check option

VIEW is a virtual table created by a query joining one or more table.

Syntax :

```
CREATE [ ORREPLACE] VIEW view_name AS  
SELECT columns  
FROM table  
[ WHERE conditions];
```

- Dropping Views

Once a View has been created in mysql, DROP query is used to delete a

view.

Syntax :

```
DROP VIEW [IF EXISTS] view_name;
```

- Selecting from a view

Example :

```
mysql> select* from vv_books;
```

Output :

5 rows in set <0.30 sec>
