Practical-10

Aim   Perform the following DCL statements

• Granting and Revoking permissions

Output   :

• Granting and Revoking permissions

We can grant users various privilege to tables.
These permissions can be any combination of
Select, Insert, Delete, Create, Alter Drop, Grant
option or all.

Syntax :

GRANT   privileges ON databaseobject TO user ;
First of all we create an User.
CREATE   User
Check Users
GRANT   SELECT,   INSERT,   UPDATE,   DELETE   to
user

Now, we have to revoke some of allthese

command.

Syntax :

REVOKE privilegesON databaseobject FROM user;
REVOKE DELETE from user
